

# With Infor Chemicals, you get a purpose-built, comprehensive suite of solutions with a micro-vertical focus.

## Specialized tools:

- Transition to more profitable and marketable products.
- Increase perfect order rates.
- Gain flexible and robust global supply chain modeling.
- Maximize capacity utilization across multiple locations worldwide.
- Reduce stock outages.
- Streamline and automate regulatory compliance.
- Bring new products to market faster.

## For your industry

Industry-specific capabilities, including attribute costing, planning of co-products and by-products, formula matching and optimization, safety, and quality.

- Modern solution with a beautiful new user experience, enterprise collaboration framework, and pervasive analytics embedded through process flows.
- Integrated solution suite with out-of-the-box connections between ERP and product lifecycle management, ERP and supply chain planning, ERP and warehouse management...and more.

# Infor Chemicals solution map

# Infor Chemicals capabilities

Bulk	Agriculture/ Fertilizer	Lubricants/ Adhesives	Paint	Pharmaceuticals	Personal Care	Oil & Gas
Push-pull planning	Demand forecasting with seasonality, promotions	Push-pull planning	Demand forecasting with seasonality, promotions	Blend and formula optimization	Demand forecasting with seasonality, promotions	Energy consumption and cost management
Blend and formula optimization	Sequencing and changeover by package type and size	Blend and formula optimization	Sequencing and changeover by package type and size	Mix-mode manufacturing	Mixed-mode manufacturing	Upgrade with zero downtime
Attribute based cost allocation	Production scheduling respecting tank capacities	Attribute based cost allocation	Production scheduling Respecting tank capacities	Shelf life/expiration	Sequencing and changeover by package type and size	Predictive maintenance
Order-less production with back-flushing	Management of co and by products	Order-less production with back-flushing	Management of co and by products	Attribute based cost allocation	Production scheduling respecting tank capacities	Performance monitoring and alerting
Thru-put control	Lot and sub-lot traceability and recall	Thru-put control	Lot and sub-lot traceability and recall	Grading of chemicals with attributes/assay	Management of co and by products	Operational compliance & safety
Grading of chemicals with attributes	Stringent labeling	Grading	Labeling	Sequencing and changeover by package type and size	Lot and sub-lot traceability and recall	Mobile field worker productivity tools
Lot and sub-lot traceability and recall	Support for promotions, pricing and discounts	Lot and sub-lot traceability and recall	Support for promotions, pricing and discounts	Labeling compliance/assurance	Stringent labeling	Environmental compliance
Variable pricing	Integrated plant maintenance—asset intensive	Volatile pricing	Integrated plant maintenance	Lot and sub-lot traceability and recall	Support for promotions, pricing and discounts	Centralized monitoring
Co and by products		Co and by products		Co and by products		
Integrated plant maintenance—asset intensive		Integrated plant maintenance—asset intensive		Integrated plant maintenance—asset intensive	Support for retailer EDI standards
