Our customers by country

We have customers across:

Europe

Asia

North America

...and of course Poland

Customers by industry

F&B:
Dairy
Fish and meat
Fat
Fruit&vegetables

Distribution

Wood & Furniture

Equipment

Chemicals:
Cosmetics
Paints

General Manufacturing

Case study: Biowet

iPCC business consultants after analysing Spanish solution modified it to meet Polish market requirements. The implementation covered all key processes including production with **laboratory and inspection control**.

Other modules used during this implementation: financial controlling, financial accounting, product data management, manufacturing execution, supply chain execution, procurement and sales management.

Implementation: Infor M3 version 10.1

Biowet is a Polish veterinary medicine production plant, which belongs to the Spanish group Ovejero.

Case study: ZT Kruszwica

iPCC implemented Infor Movex in Kruszwica in 1998. In following years M3 was also implemented in other Bunge plants in Poland. Our consultants have developed a tailor-made solution for the oil seeds purchasing.

In 2014 iPCC upgraded Kruszwica to the latest version of Infor M3. In 2015 the implementation of ION started, followed by several other projects including transfer to new hosting environment in 2020.

ZT Kruszwica, part of the Bunge Group, is the largest processor of oil seeds and manufacturer of vegetable fats in Poland and in Central Europe.
